

Private Equity

Critical insight into the world of private equity

The **Private Equity** program provides participants with a solid and critical understanding of the inner workings of later-stage private equity (growth capital, buyouts and turnarounds), including the operation of private equity funds, the ways and means of engineering buyouts and restructuring transactions, reporting and performance measurement, and the institutional investor perspective.

We will re-examine the assumptions behind the industry and provide a provocative, cross-country analysis of the ways and means of investing in growth, buyout and turnaround situations. The program will provide an intense learning experience comprising formal lectures, group discussions, exercises and case studies.

How you will benefit

- Analyze and understand the marketplace for private equity: size, trends, issues affecting the market and major players
- Investigate offering memoranda of private equity funds with case studies from throughout Europe
- Understand the investment structures and return drivers used by private equity specialists
- Learn the finer details of buyout term sheets and how to structure transactions
- Review the key governance and control mechanisms issues in private equity

“Very useful, and the instructor combines both academic and practical experience.”
