

Entrepreneurial Finance

Learn how to invest in new ventures and
raise funds for startups

Rated with
4.4/5

Investment in startups plays a key role in the current economy. New companies create most of the new employment, generate innovations and disrupt existing markets. From the investors' point of view, there is an opportunity to get high returns by investing early in some of the most successful companies of the decade. Angel investment in new startups has been growing significantly, even during the crisis, with over €6 billion invested across Europe in 2015, and with a growth rate of 8.3% annually since 2012 (EBAN). Venture capital investments accounted for €5.8 billion in 2015. This is a very active market and understanding its dynamics, and how to get involved - from an investor or an entrepreneur perspective - is key for being successful.

How you will benefit

- ✓ Analyze and understand the process of startup financing
- ✓ Learn how to get deal flow and analyze a business plan
- ✓ Learn about valuation of new ventures
- ✓ Examine the effect of dilution and different rounds of financing
- ✓ Explore the legal side of investing in startups and get to know the term sheet and its key clauses
- ✓ Participate in negotiating a deal
- ✓ Gain practical experience with several case studies
- ✓ Review the different options for harvesting an investment in a new venture

The **Entrepreneurial Finance** program is targeted at individuals, with some financial knowledge, interested in learning about the whole cycle of investing in startups. Potential participants are entrepreneurs, with good financial acumen, business angels, family offices, consultants, regional development organizations and advisors. Other professionals who interact with startups in the process of raising funds, or who advise venture capital funds and need to understand how they work, will also benefit from attending this program.

Faculty

Luisa Alemany is Associate Professor of Finance at ESADE Business School and director of the ESADE Entrepreneurship Institute. She holds an MBA from Stanford University and a PhD in Finance from U. Complutense, Madrid. Her research interests are in the field of venture capital, business angels, philanthropic venture capital and children's entrepreneurial education, with several academic publications and books. She is the co-director of the ESADE Business Angels' Academy, has been in the board of the European Business Angels Network (EBAN), and seats as independent advisor in investment committees of early stage investors (both profit and non-profit). ESADE BAN (Business Angels Network) received the

"Best Performing European BAN" award in 2016. Before joining ESADE, Luisa worked for Procter & Gamble, McKinsey & Co, Goldman Sachs, the internet venture capital fund Europ@Web, and for the US private equity investment firm The Carlyle Group.
